Staying up THROUGH the night , sitting by the open Balkony door , and listen to the Rain Thundering ,is great to clear the Body and Mind . which has always worked to relax. (The strange Thing ever is that Ella often had been told she is a " Goddess " a little bizarre but then spirituel not really . We turn our back and close this Door to ignore it. Ella never mentioned to anyone , since Childhood ,that she attract's both sexes in a magical way , she can pick up on your situation your past or thought. She is very spirituel perhaps from her Convent upbringing As from her outlook she has an enourmous Energie field surrounding her , people aknowledge , is like a boost ,good for healing when depressed ,angry , frustated ,..... fantastic for others to have good Fortune Luck , she often attracks clients when she steps into shops ! Can be total empty next minute busy . ) Back to the Album " GODDESS " , Ella has use natural sound of Mother Nature , to share this experience to chill out ,relax ,perhaps mediated and gather your thoughts ,even to boost your energie level .
