Rock 'n Soul characteristics of old school meeting new school. 10 MP3 Songs ROCK: Funk Rock, URBAN/R&B: Soul Details: As far back as I can remember there was always music in my life. My Father was a professional bass player. I was raised with lots of different music in the house. I guess that is why my music has vast variety of influence. I started playing drums between the ages of 2 and 3. It was in High school when I started writing music and playing other instruments because I was blown away by Prince after seeing Purple Rain . I noticed that at that moment I wanted to reach out to a different direction. That led me to playing everything on my demos. That led me to Tenacity mix an album I played everything on because of my training. I always had a love for music so much that it felt like an extension of my body. I am into using a variety of chords and writing about things in my life that I know. These things are just a glimpse of me. To know more about me check out the album.
