

# Mp3 John Luttrell - Underwater Flying Lessons

a collection of soothing ambient piano themes, with some neo-classical elements. 7 MP3 Songs NEW AGE: Ambient, ELECTRONIC: Ambient Details: Greetings New Age music lovers! This is a collection of instrumental compositions for piano and synthesizer that you'll definitely enjoy. The title track, 'Underwater Flying Lessons', gives the listener both the feeling of being underwater and flying above the clouds. (Of course, being only human with our feet on terra-firma, we would need some serious lessons to swim with the dolphins and fly with the albatross....) The second track, 'Bank Shot', is an upbeat tune inspired by the works of long-time Genesis keyboardist Tony Banks. 'An English Garden' and 'Rooftop Ballet' have some common neo-classical themes and are two of my favorite performance pieces. This CD has been featured on the weekend New Age radio program 'The Morning Breeze' on KSBR - Saddleback College radio in Mission Viejo, California - 88.5 FM in Orange County. Look for the new releases on OtterSong Records.
