

Mp3 Kodwin - The Peaceful One

[DOWNLOAD HERE](#)

This CD contains soothing music using strings as background and flute and harp as lead instruments. It has nature sounds too. It is purposely for unwinding or for meditation. 7 MP3 Songs CLASSICAL: Orchestral, EASY LISTENING: Lounge Details: The Peaceful One is an album with all original songs composed, arranged and recorded by me. It is intended for relaxation and for any other form of activity that goes well with mellow instrumental music. I am well able to compose and record music in other genres and I am available to do other types of work (like soundtrack for movies, jingles for commercials, etc). In the past, I have been hired to be the arranger of quite a few album projects whose CDs have been marketed mostly outside the US (I live in Pennsylvania). I am basically a keyboard player but I can play other instruments too. I hope that The Peaceful One will be enjoyed by you mellow music lovers out there. However, the upbeat music albums will follow in due course (and I mean with vocals also, genres like jazz, reggae, R&B etc). Thank you and enjoy!! This is only the beginning.
