Combination of Folk, Flamenco, Classical, Latin rhythms 12 MP3 Songs WORLD: World Fusion, FOLK: Power-folk Details: Musician by birth, Christian by choice, Systems Engineer by trade. This CD project is a combination of songs I have written over the years the oldest being written in 1975 and the latest in 2005. Although this CD is acoustic in nature my roots are hard rock and blues. I have a BA in Music with Classical Guitar as my major instrument. This CD was completed over the last year off and on between road trips for my job. I travel the country setting up Storage Area Networks as well as Local Area Networks. I recorded all the music on a Tascam 2488 I got last August. My son Justin plays the fretless bass and my daughter helps out with vocals. Look for more Project A.F.T.E.R. CD projects. I am getting ready to start on a Blues gospel or Contemporary gospel project soon...
