Details: Ron Meyers spent his adult years building and running successful companies. At the age of 43, his heart felt empty. Neither prestige, money, nor toys were enough to satisfy him. He remembered his lifelong dream of creating music and wondered if he could do it. The risks seemed tremendous, yet from somewhere deep inside, Ron found the courage to take a years sabbatical and liberate the songs of his soul. Through music he faced the pain of his childhood and discovered the magic child, a spiritual presence that offered love and creative power from the inside out. This first CD records that healing journey. Rons music will touch your heart, tapping the dreams you have tucked away, awakening the hunger and longing of your soul for Magic. Abuse and violence will end only when we learn to love ourselves. Until we do, we cant love anybody else. To turn away from destruction, we have to believe in our power to create. The Magic Child shows us how to do that. Because I found the Magic Child in me, this CD is now in your hands instead of Lingering in my Heart as an Impossible Dream. Im an ordinary person who has lived so much from the outside in, always looking for something more than what I had to satisfy me. Like a star in the sky, that something more was always beyond my reach. The Magic Child revealed that the star had been inside me all the time. That star is love. It crumbles the prison walls of fear and anger and sets us free to jump and kiss the sky in a joyful celebration. We all have a Magic Child within, who is playful, creative, holy and wise. Inside everyone of us, its magic. Were magic inside. This cd is dedicated to my beloved Jane, whose love and support for my music has never wavered... This ones for you, Babe
