Beautiful melodies, beautiful sound, relaxing to the body while stimulating the mind. 12 MP3 Songs EASY LISTENING: Mood Music, EASY LISTENING: Background Music Details: Its beautiful, its relaxing, and did I mention beautiful and relaxing? Its the sound of Strohsdivad (Strow-sdih-vod) featuring David Shorts on soprano, alto, and tenor recorders, accompanied by guitar and drum. The album, simply titled Recorder Music, takes the listener from Peruvian blues in Bluruvian, to the mountains of Thailand in Hmong Melody, through the compound meters of Bolivias La Paz, down the streets of old Europe in Be Still My Soul and Jesu Meine Freude. Strohsdivad is inviting, soothing, simple, yet sophisticated enough to keep you listening to the album again and again. From the day I wrote the first song, Bluruvian, I had friends asking for a complete album of the beautiful, sometimes haunting melodies, with the soothing recorder playing them. Need background music for your next tea party, or business party. Maybe you need something to be playing in your dentist office, or massage office, check out this album. But, when you're playing it in your office, and people ask you who it is, be sure to let them know where you got it. Thanks.
