Raised on George Jones and Elvis, Lefty Frizzell and Jerry Lee Lewis, Conway Twitty and Little Richard with lots of Cadillacs thrown in ... LOOK OUT! These guys are dangerous. Collectively bj and the boys have written songs for the likes of John Michael Montgomery, Earl Thomas Conlee, Emmylou Harris, Buck Owens, Gene Watson, Don Gibson, Moe Bandy, Joe Stampley, Terri Clark and Alan Jackson among many many other huge country stars. Now they have collectively directed that talent toward the group and are cranking out the hits for bj blue and the Cadillac Cowboys. The Country Songs are Country ala George Strait. The Rockers, Rock ala Brooks and Dunn and the Texas swingers swing ala Asleep At The Wheel. This album contains a modern mix of "all that's good" in ALL the music that has come before us. Check out the originals from bj and the boys. "Cowgirl Up" is definitely a statement for all you girls out there in skin tight jeans and a crop top that just oozes attitude. "Payback is hell" and "what works for the goose is double good for the gander" sooooooooooooo "slide on out on that dance floor and start struttin' like a movie queen". You know what I'm talkin' about! "Legendary Lovers" is classic George Strait to the maxx! Today's upbeat two step with a tale of two star-crossed lovers that were "meant to be". Fiddles and Steel makes this a Traditional country music treat ... Enjoy! "Honeymoon Tonight" is an easy listening come-on in the tradition of a Randy Travis or Merle Haggard classic. This song swings but is moderate in tempo an unusual combination that bj and the boys know exactly how to "get down" on. Check out the fiddle and piano work on this one, not to mention some of the most spaced out lyrics on the planet "I'll paint the sky with big letters sayin' I Love

You" ... "Somethin' Easy Tonight" is pretty much your standard Brooks and Dunn, kick your ass, uptempo barroom brawl, lights-out shuffle. It must be about closin' time on this one and bj is puttin' some major moves on a cute little gal he's found. It's worked before, so why not try it again? ... "it's been a long hard day, and I need Somethin' Easy Tonight" (how 'boutchu baby?) "Made In The Shade In Texas" tells it exactly like it is deep in the heart of the Lone Star State. bj's a Texas Boy and it shines thru on this song. Everything is covered from El Paso to Texarkana and from Muleshoe to Brownsville. Boots, hats, jeans, pearl snaps, saddles, tack, redneck honky tonk bars, pretty women, Willie, George and Waylon ... Bob Wills ... billy joe is "Texas Proud" and just wants to "sing my sonnets where those bluebonnets grow". This cut is TEXAS style Western Swing on steroids and the Cadillac Cowboys Smoooooooooooooooooke on this one. The title track "Hip Shakin' Man" is all about (you guessed it) THE KING of Rock'n'roll ... Elvis himselvis ... cause "We ain't never been rocked like we got rocked by that Hip Shakin' Man" ... the Jordanares are right at home on this one (they did 99 of all of Elvis' backups) along with bj and the boys.
