Folk, Country with a side of Blues 11 MP3 Songs BLUES: Acoustic Blues, FOLK: Folk Blues Details: Located in Arlington Virginia for the last few decades, I've come to call it home.. I love playing music in the Washington DC area. I've wanted to make this CD for the last 10 years and now here it is thanks to alot of wonderful people... in 2001 I was in a car accident and spent 27 days in a coma and the following 4 years recovering from being crushed between 2 cars... I spent 13 months making this cd because when I awoke from the coma I had no idea if I would ever play or sing again.. I am so blessed to be able to have a second chance at life... Never lose even one memory moment.. your relationships with everyone else in this world is all that really matters.. I know this.. ask anyone who has died and returned and you will find that our interaction with each other is what life is actually all about.. I am about to make a quest to spend the next few years writing my next cd.. I appreciate your purchase.. it is helping me write my next cd.. thank you
