The best new years song ever written, jazz, blues, pop, Bosa Nova, and a reggae song. 10 MP3 Songs

JAZZ: Smooth Jazz, BLUES: Electric Blues Details: Petals of Love Volume 2 Description Charles Miller was a music teacher and later a computer technology teacher in the Chicago Public Schools. This is his second CD, "Petals of Love" volume two. In this volume Charley rerecorded Hey, Hey and Gemini giving each a new fresh sound and modern lyrics. Gemini was done in a reggae style after a dream about two suns shining so bright that travelers in outer space can identify it as a navigational point of reference between this universe and others. Hey, Hey 2002 is a love song of a man enjoying the company of his wife and child at the beach. "A Magic Moment" is love song telling the world how love should be valued and not wasted. Love is a blues song about a young man in a hot situation- a very, very feavorish moment in time when the body and the spirit is willing with the right woman as stimuli. Included on this volume also is an extended version of "Smile!" Charley theme song. Petals of Love Volume Three This 3rd CD includes a ragae song "I Get Around" a cute little song about a man who goes everywhere in the world--and not straight home to his loving family. This CD also features "Nature's Millionaire" a story about a man high on living and not about drugs--but about making himself a success! "Pretty Girl" is a ballad about a girl friend and her value to a man who loves and wants to keep her always in his life. He is now very proud to present to the world, another CD that allow a person to party and dream, to think of a world where dreams can happen.
