An eclectic collection of remixes of Cavedoll songs. 17 MP3 Songs ELECTRONIC: IDM, ELECTRONIC: House Details: NPR- " Cavedoll is prolific, almost to the point of absurdity. The neo-new wave group has released 13 albums in the past year. At the root of it all is the hyper-active imagination of frontman, Camden Chamberlain. For Cavedoll's latest release, No Vertigo, Chamberlain and the rest of his band serve up a hip-shaking burst of feel-good energy, inspired by '80s synth pop, electronica and punk. The album opens with the infectious and explosive "Decoder," with a driving synth bass groove and Chamberlain's crooning voice singing, "you know you want it!" No Vertigo takes a slightly darker, Cure-like tone on songs like "Cut in Half" and "Soma E Coup," while tracks like "The Past That Was" and "Now Is Our Time" are quieter and more introspective. But the urge to dance is still there." People who are interested in BT Aphex Twin Mouse on Mars should consider this download.
