a hybrid of pop melody, punk energy, manic lyrics, and of course, colorful insights into the psyche of the human condition. 19 MP3 Songs POP: Quirky, POP: New Wave Details: Fake Brain has released their second full-length CD, "Department of Our Ways" on their own imprint, WABNARC (We're A Band, Not A Record Company). Since their first album, Fake Brain has added a new bass player and a variety of experimental sounds to their arsenal. The special blend of indie-pop and art-noise-punk has gelled into what the band likes to call "Psychadelic New Wave". The band consists of Gideon on vocals, Andrew on Guitar and Keyboards, Marc on drums and vocals, and James on bass. All members contributed synthesizer blasts and other sonic protrusions. The record was recorded and in Fake Brain's tiny Brooklyn studio in the summer and fall of '99. Parallel to the release of "Department of Our Ways", Fake Brain is introducing it's own comic book. Episode one is being distributed for free at live shows, and is available for download on their website. Now the band is gigging in and around NYC to promote the new record. The band hopes to tour and release an EP in the coming year.
