Powerful life changing lyrics with an original sound. You'll play this CD over and over. 16 MP3 Songs HIP HOP/RAP: Spiritual Rap, HIP HOP/RAP: West Coast Rap Details: Gen is an abbreviation for generation. Further explanation is available at gen-14 by clicking on the link The Meaning Behind the Name. The members of Gen came together almost by accident. After about a month of writing, hanging out and praying together out of the blue one night we said what are we going to call ourselves and the rest is destiny. We discovered that God had a purpose for each of us but those purposes were not complete without each other. We operate as a family. Our mission is to lead the world to the love and hope of Jesus Christ. Bringing restoration to a lost generation by uprooting and destroying the false hope, immoral messages and idolatry that secular music is using to infect generations past and present. In order to impact future generations we want to speak the words of the Lord through the language of today's culture, which will bring peace, healing, vision and destiny. -Exodus 34:10 We love people, getting out and serving in our community by feeding the homeless, volunteering to go into Juvenile Hall to influence kids in a positive way and making house calls to pray for people. Music is our passion but only a tool. Ministry is our real objective. For us we want to see the BODY whole. So we speak life not death because love never fails!
