[phobos.apple.com/WebObjects/MZStore.woa/wa/viewAlbum?id=128879703&s=143441](http://phobos.apple.com/WebObjects/MZStore.woa/wa/viewAlbum?id=128879703&s=143441) for digital downloading into your classrooms or homes. The individual teacher or family member may download the entire CD, or individual songs. Our CD, along with the activities available on our web page:

[tempub.com/index.htm](http://tempub.com/index.htm) are designed to be a fun, interactive, educational tool that will create positive interaction between children and adults dealing with everyday issues in a child's world. As folks share these songs with the children in their lives, they will create lasting memories of quality time shared as they discuss the issues addressed within the song lyrics. Some of the issues addressed within the lyrics are listed below: (1) Making children aware of car and street safety- (Seatbelt Hugs and Always Look All Ways). (2) The cultivation of patience- (Waitin My Turn). (3) Self acceptance and that perfection if it takes place at all is as fleeting as a summer shower- (Mistakes Happen) (4) The importance of strong family relationships and being positive role models- (Younger Brothers and Sisters). (5) For the parents, we have also included a reminder song that deals with the fact that so much of what we are and how we express ourselves is who and what our children will become. Also, the other side of the coin, that parents have times of stress, as well.- (My Learning Tree). (6) An inherent part of all of the above- (Common Sense). (7) There is also a fun rhyming song to encourage all to take part in the creative process- (Taking Time to Rhyme). (8) At the end of our CD, you will find a guitar instrumental for all to relax with and enjoy

the moment at hand- (Finding the River). As well as listening to our CD, please, take the time to carefully review our CDs web pages at [tempub.com/index.htm](http://tempub.com/index.htm) , especially, the "Songs and Activities" section: [tempub.com/activities.htm](http://tempub.com/activities.htm) . After reviewing our web site and CD, you will see that together they are designed to be a fun, hands on, creatively interactive, educational tool. Of course, the activities suggested in the Song and Activities section are intended to be springboards for those implementing the activities. Im sure many more ideas will spring from the minds of the facilitators, as well as, from the mouths of babes! We feel the age range of our CD is from 3-12 years of age. The safety issue songs are more for the younger children. The role modeling and self-acceptance songs being more for the older children. Songs by their very nature and inherent structure have multiple reinforcing features: rhyming, metaphor, simile, other poetic devices, rhythmic, melodic, and harmonic references, as well as, the song structure, itself. These features all serve to reinforce the above mentioned concepts interactively while adult and child enjoy the moment at hand. We endeavored to keep this recording as honest as the songs. We turned off a fair amount of the expensive equipment in my recording studio to keep it simple and straightforward. Our goal was to create the feeling of sitting around ones living room casually relaxing, sharing in song, and enjoying each others company. As you will here, the instrumentation is simply myself playing guitar and singing my original compositions much like the folk singers of years past. If you wish to purchase a hard copy of our CD Family and Friends, they are available at cdbaby - Simply type in, or click: [cdbaby.com/cd/pochedley](http://cdbaby.com/cd/pochedley) (Please, forward this to any of your contemporaries that may be interested.) Take Care! Joseph J.I. Pochedley
