What others are saying: Mark, man your CD is incredible! You have a beautiful voice! In fact, I thought I was listening to the wrong CD. You sound like the lead singer from Mason Profit, Dave Mason or Eric Clapton, I can't figure it out. The songs just beautiful. If you are not in the entertainment business something is terribly wrong. I would and will defiantly buy any of your CD's I can find. I just wish you had signed this one, someday when your famous, nobody will believe me that you asked me to critique your first album! You are defiantly going places my friend! No doubt at all! I love every one of your songs and will most likely wear out your CD. Janine Morales Rout66classicguitars.com "'Carry Me Away,' a fresh new CD by Mark Wagstaff, is a melodic delight to the senses.
