

Mp3 Overise - A Long Story

[DOWNLOAD HERE](#)

Rock band based out of Philadelphia, PA. This band is known for writing catchy hooks that will take forever to get out of your head. If you like alternative/pop/rock, check this CD out. 5 MP3 Songs POP: Pop/Rock, ROCK: Emo Details: Overise is four piece band that hails from just outside Philadelphia, PA. There are moments that make or break a band, and ones that ultimately define them. These moments are a test of determination, drive, and strength. It should come as no surprise that this band embodies what the city of Philadelphia stands for: hard work and dedication. The sound of Overise is led by their unique, alternative rock music and profound, emotional vocals that when blended together, form an incomparable sound that is one of a kind. With a live show that is full of intense energy and passion, Overise shows you how special they really are. Singer/songwriter, and guitarist Joey De Noble, fuels the music of the band. Growing up in a musical family, De Noble is a natural born talent. His vocals are a perfect combination of sweetness and power. In high school, De Noble joined forces with Mark Bolger (Lead guitarist) and thus the foundation of Overise was assembled. There was a natural fit between the two as they simply just clicked when on stage together. De Noble and Bolger headed to college where they became roommates together at West Chester University in Pennsylvania. Early in the songwriting process, Overise caught the attention of Garret Watts (Bass guitar) during a local live acoustic show at school. Watts soon joined the band and Overise was on their way to excellence. Ironically, the guy that is behind it all on stage, Kevin Kurtz (Drums/Percussion), was the final piece to the band. While in strong search for a drummer to complete the group, De Noble came across Kurtz on the Internet. After meeting for the first time, they realized it was a genuine fit. Kevin Kurtz brings Overise to a full circle with both his experience and energy shown by swift, intense beats that accompany the music of the band. After forming, it was the hard work and dedication of the band that started to get the wheels spinning. Since all members of the

band are full time college students, they have to work extra hard to juggle both school and being in Overise. But these guys are obviously a special group and this challenge is only a small hurdle for them. Overise is willing to do whatever it takes to make things happen for them musically. They have already shown how much devotion they have for their music with what they have accomplished in such a short amount of time. For only existing as a band for a little over a year, Overise has managed to open for big bands like Something Corporate, Better than Ezra, Dispatch, Pete Francis, Familiar 48, and Junction 18, as well as several other well-known Pennsylvania and New Jersey bands. Overise has recently finished recording their five-song debut demo EP entitled, A Long Story, which they have independently released on their own. A Long Story was released early February 2005 and was engineered and recorded by Walt Mecleary of Ground Hog Studios (Holland, PA). The band was lucky enough to have caught the interest of 2-Time Grammy Award Winner, Michael Tarsia who served as chief engineer in the mixing and mastering process for the disc. Tarsia has worked with various award-winning platinum artists such as David Bowie, Vanessa Williams, Patty Labelle, and Dru Hill. In addition to their EP, Overise has appeared on the 2004 Skate and Surf Compilation: Under the Boardwalk. Overise is also featured on the Drive Thru Records/PureVolume compilation, Bands You Love, Have Heard Of, And Should Know with the song "Outside". This compilation can be purchased through the band's website. A Long Story is now available for purchase at the band's shows, through their website, Overise.com, as well as through Smartpunk.com, and Interpunk.com. Join the band's official mailing list at their website to receive the latest news about where you can purchase A Long Story.
