elettrocantoni 10 MP3 Songs ELECTRONIC: Pop Crossover, POP: with Electronic Production Details: Peer Seemann, Swiss and German citizen, was born near Zurich and lives in Zurich. He worked as an electronic music producer creating filmscores and music for theatre plays before he founded his own record label, peersound, and released "On y va! remixed" in 2002. The 4 track-CD was a huge success in Switzerland, featured by many major newspapers, music magazines, radio and tv stations all over Switzerland. In 2005 he released "vita chiara", a more singer-songwriter orientated album influenced by the italian "cantautori", with still a lot of electronic sounds. "Vita chiara" got a lot of good critique by music magazines and newspapers and was said to be creating a new type of italian indie-electronic-songwriter style (see peersound.com). In the meantime the band toured in Switzerland and played a gig at the moods jazzclub in Zurich. They are planning a further tour in autumn 2006 all around Switzerland. for more details see peersoundor myspace.com/peerseemann
