

## Projectx1 Platinum Pack

[DOWNLOAD HERE](#)

Overview The projectx1 platinum pack is an FXB sound bank for my free bass synth - ProjectX1. (The ProjectX1 bass synth is also included in the download zip.) The soundbank features urban style phat bass sounds with styles including electronica, pop rock, tekno, rave, d n b, reggae, pop, dance and those big round basses everyone loves so much which fills out the low end. There is 90 presets to choose from. Also included in the presets are 6 sound effects patches and a couple of punchy lead sounds. With this sound bank I've made good use of the asymmetrical wave shaping available in projectx1, this wasn't utilized in the standard presets. Platinum Pack User Remarks Breakmixer on kvr said: The sounds sound as good as any other commercial vst synth (like predator) I have"some nice sounds for all sorts of dance music styles. Comment by Email: I own many synths, both hardware and software. Your ProjectX1 has some of my favourite bass patches. Great job.
