Here's An Easy Way To Discover Exactly When Your Website Gets Spidered By The Major Search Engines, So You Can Target Your Site Updates For Maximum Benefit. Search Engine Detector offers a simple way to detect spider visits, automatically notifying you by email that a spider has visited. This means you can perform updates when they are useful (i.e. after a spider has visited) rather than continually performing unnecessary updates that never get seen by the search engines. This can save you unnecessary work, while allowing you to optimize your sites for search engine benefits. Tags: seo
