

Electron Microscopy Of Polymers

[DOWNLOAD HERE](#)

I Techniques of Electron Microscopy- 01. Overview About Techniques- 02. Transmission Electron Microscopy - Methodical and Instrumental Fundamentals- 03. Transmission Electron Microscopy Conventional and Special Investigations of Polymers- 04. Scanning Electron Microscopy- 05. Atomic Force Microscopy- 06. In situ Microscopy- 07. Image Processing and Image Analysis- II Preparation Techniques- 08. Problems of Electron Microscopy of Polymers- 09. Preparation of Surfaces- 10. Preparation of Thin Sections- 11. Special Preparation Techniques- 12. Preparation for (in situ) Deformation Tests- 13. Contrast Enhancement- III Main Groups of Polymers- 14. Structural Hierarchy of Polymers- 15. Amorphous Polymers - 16. Semicrystalline Polymers- 17. Polymer Blends- 18. High-impact Rubber modified Polymers- 19. Block Copolymers- 20. Rubbers and Elastomers- 21. Polymer Composites- 22. Polymer Nanocomposites- 23. Biological and Biomedical Polymers- 24. Special Processing Forms- Index EAN/ISBN : 9783540363521 Publisher(s): Springer, Berlin Discussed keywords: Elektronenmikroskopie, Polymere Format: ePub/PDF Author(s): Michler, Goerg H.
