Americana/Rock/Country-----Rock and Rollers that love country music 13 MP3 Songs COUNTRY:  
Country Rock, ROCK: Americana Details: Copperheads goal for this album is to provide a "Remedy" for music that begins to feel repetitive. It is not to be "country" or "rock." It is to be "musical." We hope each song will bring a different emotion, thought, or feeling and touch you in a way that is unique to you and that song. Music that moves! That's the way to describe Copperhead. From the music to the high-energy show they bring to the table. If you like a party mixed with your dancing, then it looks like you have found your band. They know what makes a good show since they were all fans first. They deliver the fun every time. Copperhead is a four-piece Texas band from Amarillo. Jeff Williams does the singing and rhythm playing. Gabe Dixon also sings a few and lights up the lead guitar. Aaron Balderas and Chris Hodges fill out the rhythm section at bass and drums. Copperhead has been blessed with a group that brings top-notch talent to the venues and approximately 70 years of combined experience to the show. That's not too bad for a band that the average age is 29 years old. Even though they act 18 sometimes.

Copperhead is about to release its next album titled Remedy. The CD has been in the works for a couple of years from Dallas to Amarillo to Nashville and the quality of the music reflects just that, as it is far beyond what When The Boys Hit Town could have ever hoped to have been. At the printing of this press kit, Remedy is just weeks from its release. A release that Copperhead thinks will take the Texas Music industry by surprise. Copperhead has come a long way from their first gig. It was supposed to be their one and only show for a bar-owner/friend but kept rolling until it snowballed into a Bud Light sponsorship and shows at some of the biggest clubs in Texas, including Graham Central Station and Midnight Rodeos. They've done shows and fairs with the biggest stars in the Texas and Nashville scenes. Including Pat Green, Billie Joe Shaver, Charlie Robison, Jack Ingram, Cross Canadian Ragweed, Cooder Graw,

Kevin Fowler, Tracy Byrd, Chad Brock, Rascal Flatts, Great Divide, Cory Morrow, Johnny Bush, Jason Boland, and Mark Wills just to name a few. They get to travel all over entertaining and theres not a lot more a musician could ask for. These guys just simply put on a good show that makes people tell others. Its high-energy and its fun to be a part of. If you dont watch out, youll find yourself in the middle of a party. Thats what Texas Music is all about and thats who Copperhead is.
