The man that needs no introduction, Mr. Amazin himself. The one and only, DESPERADO!!! A. K.A Despo, A.K.A Young Des is back with his 9th, yes!! His 9th album entitled Half Man, Half Amazin!! He is back on the scene with a new and improved flava crushing the competition and silencing all the critics! While many thought Despo would disappear with all the rest, he did the exact opposite. Taking time to perfect his flow and reinvent himself, Des has been in the booth dropping hit after hit and improving his already platinum lyrics. He is definitely ready to kick in the door and put the I.N.D on the map. I decided to do what it takes to put myself where I need to be and the only way to do that was to stay off the scene for a minute and study the competition, but now Im back and Im bout to make it happen. His lyrics are not the only thing hes stepped up ladies and gentlemen! Despo has also acquired the newest, hottest, freshest production from Jason Ray of Incredible Music Inc.!! The name says it all, -INCREDIBLE- is the only way to describe this guy!! I feel like I was blessed to come across J-Ray before someone else got the chance to!! His beats compliment my flow significantly and encourage me to step my game up. Despo is currently releasing a series of solo mixtapes. These projects are 70- 80 minutes of raw and uncut heat!! It is a combination of unreleased material and beat jacks that displays a taste of what is to come in the near future. Despo has also added another well needed element to his music. Besides C-Cap, O.G. and Nick Fury, he recently stumbled upon a goldmine with R&B sensation Rosita (Knox). Like I said, Ive been

blessed this past year. Rosita is just what I needed and shes probably the hottest female vocalist in the Midwest in my opinion. Strap on your seatbelts ladies and gentlemen because this is going to be one lyrical rollercoaster ride that youll never forget!!
