

Mp3 Greg Maroney - Sentinel

[DOWNLOAD HERE](#)

Lush, romantic piano solos that evoke images both from our memories and imaginations 13 MP3 Songs
NEW AGE: New Age, EASY LISTENING: Mood Music Details: Greg Maroney's music evokes images and stories from both our memories and imaginations. His original piano compositions are at times variations on simple and pure melodic themes, such as Wing River on "Songs of the Water Rose" and at others intricate patterns or passionate crescendo's found in songs like Esmeralda on "The Copper Hat." His third effort, "Sentinel," a unique and exciting collection of new acoustic piano music, showcases Greg's evolution as a composer and performer. Listening to his music, you will find yourself reminiscing, smiling, waltzing and dreaming. Greg has studied classical and jazz piano since age 5. He also studied classical Indian Music and gave street performances on the sitar and saz in the early 70's. In addition to creating beautiful melodies, Greg is an emergency room nurse at a hospital in central Pennsylvania. He lives in the country with his wife Linda, 3 cats, 2 dogs, a myriad of chickens, and his vegetable garden. His life, past and present, and all around him contribute to the stories that are behind his beautiful music. Some songs on this CD are available in sheet music format in a spiral bound songbook. If you are a pianist and interested in owning the printed music, go to the website gregmaroneyfor further details.
