Funked up Folk with a Blues/Rock soul. 11 MP3 Songs POP: Folky Pop, FOLK: Power-folk Show all album songs: Love Road Songs Details: The Heather Christie Band's "Love Road" is tasty fusion of soul/folk/funk/R&B/pop. To HCB accomplishment, every track on LOVE ROAD stands on its own compositionally, and come together as a stylistically, cohesive whole. Not afraid to dip and dive with dynamics, tempo new musical textures, the thick, tasteful arrangements will push, pull seduce you right down to the very last note. LOVE ROAD was recorded by Steve Sundholm in Portland, Oregon on a vintage analog reel-to-reel machine. This method of recording is responsible for that warm, tube sound on all those great albums from the 70's you know love. It's no surprise that the tracks on this album share some of the vibe from that era, but the HCB has brought it up to date made it their own. LOVE ROAD is full of grooves so thick, they should be on vinyl! So kick back, listen to some sample tracks, lose yourself on LOVE ROAD.... "mama tells it like it is, it's sexy!" - Hipfish Magazine The band is made up of some funky-ass bass rock-solid drumming (Calen Uhlig/Tom Peake), a lead guitarist who's performed recorded with the likes of John Lee Hooker Charlie Musslewhite (Joe Patenaude), a fiddle with a background in the Portland Symphony (Jeffrey Reynolds), LilithFair finalist Heather Christie on acoustic guitar vocals.
