ELECTRONIC: Down Tempo, WORLD: Reggae Details: Happi Tyme Records is happy to announce the second release by Library Science, "The Chancellor". Still experimenting with dub yet pushing into new expanded territories, Library Science are creating a sound that is wholeheartedly their own. Library Science is Mildred Pitt (of The Bran Flakes), Peter Lynch (of The Melody Unit) and Susan DeLint (of The Bran Flakes) Written and recorded in their studio over 2005-2006. It is music that does not fear laughing at itself. Music where effects are played as any other instrument. Music that knows that the space between the notes is just as important as the notes themselves. Music that learns to not fear destroying and taking away as a means of creating something new. Music that asks, "When is it time to clap?"
