ABOUT THE ARTIST This is a symphonic dream of a realistic orchestra, with more than one hundred players. An original contemporary composition by Luca Leggi. The album includes also chamber music for a string quartet. A perfect way to relax and enjoy. MUSIC QUOTES Luca Leggi captures the rapt serenity and other-worldly beauty of the Classical music. The sound of strings is as lavishing and overwhelming as can be. Emotional intensity in the climax is almost unbearable! Acoustics is expansive and dreamy. The music combined in his title Saturnalia changes with such dynamic ferocity to seem fleeting or hopelessly evasive. But the real treasures of the work lay here. The structure of the entire album really weighs on the intuitive notion of a piece of music and especially the idea of a symphonic work. This CD encapsulates the entire symphony, allowing for a smooth, uninterrupted listening experience. -
