A Bass and Piano Jazz duo CD. 10 MP3 Songs JAZZ: Bebop, JAZZ: Swing/Big Band Details: A nice little duo cd with Fred Hersch on piano and Matt Kendrick on bass. A swinging cd that the critics could like. Mr. Hersch is great. The cd has some free stuff on it which is a side not often heard of Fred Hersch. The cd also has the chilling soundtrack of playwright Stephen Jackson's "Lethal Dose 100". A play with a mostly solo bass score with wild electronic effects (on one little section) and whacking of the bass with a soft mallet. There are jazz standards such as "Have You Met Miss Jones" and "Do Nothing Till You Hear From Me." A solo upright version of Jaco Pastorius' song "Continuum" is also included.
