ELECTRONIC: Electronica, ELECTRONIC: Electro Details: Oszilla aka Andreas Weber made his debut on Karavena Records in 2005 with the record Twisted Reality. He did several live-acts in Europe and started to build up a new Recording-Studio in Breidenbach, Germany. While the studio building had progressed nearly to be finished, Oszilla crafted his 3rd album, Lost Playground in early 2008. The album is mainly influenced by the minimal electro vibe that hit Europe past the last two years. The sound is rich, melodic and creative, and generates a special vibe at home listening and certainly on the dance floors. With his excellent production skills Oszilla has been delighting the international electronic music community for some time to ensure a very high quality product once again. Here is an invitation to a journey through darkness and light, so dont miss it! People who are interested in The Chemical Brothers Infected Mushroom should consider this download.
