Hailing from the gospel, jazz, and blues-influenced farm lands of central Florida, (Bealsville) Plant City native Torentha delivers both spirit and soul on "Simply Torentha, Simply Inspirational" his independent label debut. Musically, the project offers soulful, groove-based pop sounds reflective of the richness and eclecticism of the south itself. Stylistically in the vein of such popular current artists as Smokie Norful, Luther Vandross, Marvin Sapp and Gerald Lavert. Torentha possesses the musical chops to perform convincingly as a solo singer-songwriter, as a former leader of a Christian group "The Chosen Few" and Manager/Singer for R&B group "Vocal Seduction" or in his favorite light, the front man to a dynamic band of energetic southern allies. But the strongest stimulus for Torenthas songs comes from life itself, the adversities hes experienced and the faith thats brought him hope in the midst of significant turmoil.

Torentha, has worked with Redeemed Ministries under the Diadem/Tribute label from the administrative end and would manage and often sing with such groups: The Chosen Few/co-founded Vocal Seduction Black Ice Wisdom have worked on stage and TV.
