WORLD: Judaica, JAZZ: World Fusion Details: Jewish Roots Music is the traditional music of the worlds oldest, most primal and funky people. Unadulterated Jewish jams and undiluted Jewish tribal sounds; music true to the sensibilities and tastes of the traditional Jewish community. Jewish Roots Music is in no way timid or afraid. It is music from the more intense side of the Jewish palette. (True, it isnt a kick in the teeth like a barrage of blistering electric guitar madness, but listen carefully, a raging inferno burns below the deceptively mellow acoustic surface.) Jewish Roots Music is a collection of traditional grooves (toe-tapping, foot-stomping, good-time authentic Jewish grooves for the multicultural, ethno-experimental, world music aficionado) and desert jams (moody, introspective grooves perfect to listen to as you drive back to your home in the desert). Jewish Roots Music features: * Jared Sims on clarinet * Keala Kaumeheiwa on bass * Fugan on percussion (all sorts of cool stuff including dumbek, frame drums, Egyptian tambourine and more) * Tzvi Gluckin on guitar
