How To Quickly & Easily Protect Your Affiliate Commissions From Link Choppers, Look 1000 Times More Professional, And Instantly Increase Your Affiliate Profits By 900 Or More... Guaranteed!" (Plus, I'll Reveal Exactly How You Can Save Yourself \$97.00 In The Process!) I bet you're thinking this is a sales letter, aren't you? If you are, you'd be wrong! From: Your Name Here Internet Entrepreneur Yoursite.com Date: Tuesday, March 24, 2009 heres no doubt about it affiliate marketing sounds easy, but its actually pretty tough! Affiliate marketing is the only thing about website building you cant fake ...either the clicks are there, ...or theyre not! And when theyre not, the checks are small! In case you don't know what affiliate marketing is I'll give you a very simple explanation and show you how you can protect yourself easily and for FREE! Affiliate Marketers can earn huge commissions by promoting other peoples products or services. If you have a website and wish to make money without having to develop products, or build complex technology of your own, affiliate marketing allows you to make money by simply promoting other people's products and/or services in return for a percentage of the commissions. It is an effective way for you to make money with your web real estate. If you advertise your own products online, affiliate marketing is an efficient way to generate additional monthly passive income. It's a very cost effective form of advertising for merchants, a way of extending reach to more and more customers. You may not be aware of this problem, but if you promote any affiliate program, it is almost certainly costing you a substantial proportion of your commissions. The problem starts when instead of simply clicking on your affiliate link, a customer copies the link into the Address field at the top of their browser and modifies the link before using it. This modification comes in two forms - Chopped Links and Stolen Commissions. To illustrate this, take a look at this typical affiliate link: pushbuttonpublishing.com/affiliates/t.php?rid=20754 (Use your own affiliate link here if you like :) ... remove this pink text. This link is an affiliate link for "Push Button Publishing" and, as you can plainly see, the affiliate ID is 20754. The Chopped Link For no good reason, other than simply to stop me from getting commission, a surprisingly large number of people will chop off the affiliate part of this link before using it, leaving just pushbuttonpublishing.com. Which Leads To... The Stolen Commission Some people will sign up to the affiliate program themselves, then change

the '20754' to their own affiliate ID before buying the product. The result is that MY commission gets paid into THEIR account. This is common for products sold with high levels of commission, such as most ebooks, software, membership websites, and so on... The Bottom Line Is This... You're Losing Money!

Unprofessional Links I can spot a new internet marketer from a mile away ... how? They promote long and ugly affiliate links... Be honest, would you click on my affiliate link for Host Gator Web Hosting? <https://secure.hostgator.com/cgi-bin/affiliates/clickthru.cgi?id=goodlife> (Use your own affiliate link here if you like :) ... remove this pink text. That link looks horrible, unprofessional, and I'm willing to bet not many people would click on it! This, on the other hand, is a recommendation from a fellow professional: ronhowell.net/recommends/topwebhosting The "RECOMMENDS" Encryption Method Is Extremely Powerful! Here's Why: Number one: It tremendously reduces the possibility of prospects "Hijacking & bypassing" your affiliate link. (That equals more money in your pocket!) Number two: The "Recommends" link looks professional and gives your prospects the impression that you are just recommending a product, therefore, they will not hesitate to look into your recommendation! Conclusion: More people will click on your affiliate links and your chances of making sales will immediately skyrocket! Unfortunately, using this type of technology does not come cheap...Software Programs That Create "Recommends" Affiliate Links Sell For Up To \$97.00! Until Now That Is!!!
