Gavin DeGraw should consider this download. Details: Some people were made for music. No matter

what other ventures they take, all roads lead them back to music. Vincent O'Rourke is one of those

people. He's been singing, arranging, writing, leading, and touring all his life! He's finally releasing his

music to the public and I think they'll be surprised. This is his first single titled, Am I the Only One? written

by Vincent as well. His music is right on track with the current Pop/rock trend. There are driving guitars,

danceable rhythms, big vocals, extremely catchy choruses and in your face lyrics. Vincent holds nothing

back when it comes to lyrics as he discusses cheating, the love of his life, selfish people, and not giving

up. When people hear my music, I hope that not only do they listen to the melody, but they also listen to

the message. All of my songs have a point that I believe is important for us to think about. So many songs

are literally about nothing, or nothing truthful at least. When did that become cool? Vincent's first single is

about knowing deep down that someone in his family was cheating on their spouse. This is something

that unfortunately most of us can relate to. Amidst the deep lyrics, the music is extremely fun to listen to

and sing along with. It's very similar to Maroon5 especially on this first single. His music can be compared

to other artists such as The Fray, One Republic, and Relientk. This is an extremely impressive beginning

for Vincent and I know we'll be seeing a lot more from him in the very near future.
