Knifer Presents The Mad Poet (re-recorded Album Version)

DOWNLOAD HERE

These re-recorded poems are from The Mad Poet's self-titled album released by Theophany Records except these tracks have much more layering than the original Theophany version and ADP Records version. Therefore, every track has (at least audibly) extreme depth. If this was a brand-new album, the atmosphere, however contrived, is heavy and thick. This online version of the album does not have the infamous Bornless Ritual track but the albums in retail stores will have it.
