..."uplifting, afloat with mystery, and totally enchanting"...from Space Music to modernistic Ambient and Instrumental 8 MP3 Songs ELECTRONIC: Soundscapes, NEW AGE: Ambient Phi Songs Details: Thanks for visiting my page on CD Baby. Please take the time to heed the useable previews (look at the left of the page). I hope you'll like the atmospheres emergent from the songs. I will not expend many words trying to describe the kind of instrumental music I compose (those descriptions risk to be all too similar), but here below I'd like to report some comments from heeders around the world. I hope you will enjoy the music as they do. |||[[Finis Terrae #1] \_\_ "Alessandro has put together some great tracks. He indicates that this is the first of a new trilogy. This new track shows some growth and sophistication that is a pleasure to hear. I trust the rest of the trilogy will show the same growth and improvement. Enjoy." - Andy Schmidt for \*Eclectic Connection\* (former mp3station) |||[[Finis Terrae #2] \_\_ "Continuing where he left off with part 1, here we have more beautiful synths - atmospheric and moody, again, bringing to mind the music of bands like Tangerine Dream and Sad World." - Paul Nurminem for \*Gloom-Beat\* (former mp3station) |||[[Finis Terrae #3] \_\_ "Continuing where he left off with part 2, the music here starts out slowly, in a nice tranquil arrangement; with parts dropping in and out of the mix - including a section where it's almost entirely bell sounds, followed by the return of the guitar from part 1. After this, the synths return, and the song finishes in a soft but beautiful climax." - Paul Nurminem for \*Gloom-Beat\* (former mp3station) |||[[Metamorphosis #1] \_\_ "A dense, broad, well arranged and balance piece, ... simply great symphonic electronica!" - ASYSA for \*The Source\* (former mp3station) |||[[Lontano] "Composing this way is not an accident. Lontano is a lovely amalgam of sonic delights. The music is uplifting, afloat with mystery, and totally enchanting. Score: 9.20" - Kenny Croes for \*Gods of Music\* (on godsofmusic under "Atman" pseudonym) |||[[Volo #1] \_\_ "Beautiful mix of classical music with ambient space" - \*Climate\* (former mp3station)

||||[Spazio Esterno #2] \_\_ "This organ spacemusic is hauntingly beautiful. This reminds me a bit of Klaus Schulze's first solo recording IRRLICT." - Craig Padilla for \*Electronic Soundscapes\* (former mp3station)  
||||[Spazio Esterno #3] \_\_ "Beautiful postmodernistic instrumental" - Jason Artman for \*The Late Bar\* (former mp3station) ||||[Pianeta Ghiacciato] \_\_ "Great Soundscapes in the best Berlin-School-Tradition!" - Poegs for \*Tangerine Dream Tribute\* (former mp3station)
