This Album will make you travel through languages and styles, but once again make your own opinion. 14 MP3 Songs in this album (53:28) ! Related styles: WORLD: African- North, URBAN/R&B: Soul Details: Ahmed Soultan's Afro Arabian Soul album "CODE" is a wonderful surprise of great musical flavor that takes you on a journey while providing you with a cultural experience at the same time. Blending Afro Arabic, Berber, and French sounds, language and an experience not like you've had before. His music is unique and one might say a bit mysterious, but at the same time quite familiar, you'll recognize many of the vocal stylings and the sounds you love that are present in today's hits in Urban American Soul. But (most Westerners) ears may not recognize those from North Africa and the Middle East, but your inner vibe meter will welcome these previously unfamiliar sounds instantly like an old friend or a loved one. The Artist and album's sound and vibe is accessible and inviting, even with many words that you won't understand, but you'll feel them inside your framework and your heart will translate what you may not be able to verbally. "CODE" has an infectious sound and vibe that defies geographical boundaries and genre limitations, causing you to play the album over and over repeatedly. To put it simplistically, Ahmed Soultan is a hybrid talent located somewhere between D'Angelo and Femi Kuti, produced by Akon, Timbaland or the Neptunes if they were from Morocco. This artist is a super talented and Worldwide Star in the making. Know the music and remember the name, Ahmed Soultan. We hope you enjoy(ed) the music samples and are considering picking up this gem, we're more than certain you'll enjoy it. Thank you.
