

Mp3 Chris And Mollie - (take To The Skies)

Like popping zits on a summer day, Chris and Mollie find solace in the strangest things -knowing that the hookers in heaven are pretty - clapping as their classmates die - and hoping that their heads get chopped off so someone notices them. 14 MP3 Songs POP: Quirky, ROCK: Emo Details: Roaming the earth as a tiny maggot for many eons, Mollie was very lonely. Then, she had a vision of a hooker from heaven (who was quite pretty, if you must know) and she said, "you will have a baby, he will be named Chris, and together you will form a band. You, Mollie Hagar, shall play drums, while Chris Donlon, the unborn bastard inside you, will play guitar. This is your destiny." When the prophecy came to pass maggots everywhere rejoiced for the coming of their new savior and Mollie was no longer lonely. Chris and Mollie have played many dirty living rooms and have appeared live on KZSC 88.1 FM in Santa Cruz twice. They are preparing to record a new EP called "the maggot." Chris is also in a band with two childhood friends called Rutherford B. Hayes is Dead. They sing about otter pops and alligators (anything that's edible or an animal). RBHID.com
