

Mp3 Connie Wible - Journey Of The Heart

[DOWNLOAD HERE](#)

Beautiful, lyrical piano works that move the soul. 20 MP3 Songs EASY LISTENING: Mood Music, CLASSICAL: New Age Details: Connie Wible is a well-known pianist, composer and teacher in the Seattle area. She is a classically trained pianist who always loved the development of an inspired idea that seems to take form in a life of its own. From an early age, she would compose the music that would take the stress from the rest of the day. As a performer, Connie has performed with many classical soloists and ensembles. However, the music on this first Cd, Journey of the Heart is Private Music, the soul laid bare to contemplate the next step of the Journey that is Life. It is as personal as a diary, music to come back to, time and time again, like a dear friend. For many years, Connie has been guiding young musicians into the creative expression of piano and keyboards, both pieces written by great composers, and encouraging the musicians to be their own great composer. Musical creative expression is part of a persons soul and she believes anyone can be tuned in to their musical mind. Please feel free to check out her studio website: musicalmind.playkeyboardfor a better understanding of the philosophy of this gifted and inspiring performer.
