

Mp3 Eskit - Halloween

[DOWNLOAD HERE](#)

A musical descent into the netherworld of Reality, a poetic journey to The Other Side. Thirteen songs that insult polite society berate the darkness of our souls. Piano. Voice. Halloween. Boo. 13 MP3 Songs in this album (37:55) ! Related styles: FOLK: Political, FOLK: Angry People who are interested in Kurt Weill Bertolt Brecht should consider this download. Details: The HALLOWEEN album is a collection of songs that rejoices in the ethereal and the fantastic. The selections conjure the spirit of the holiday laughing at the symbols, cavorting with Death and Foreboding. Many of the diabolical ditties travel the wasteland of contemporary America. Several more deal with Halloween mythology some with charm, some with a glimpse of Perdition. Do not be afraid of these songs, for they do not bite, neither do they take your money and give it to Wall Street. They merely celebrate (and mourn) the darkness of our soul.
