Another great collection of stompin' hillbilly honky tonkin' country western outlaw rockabilly tunes. 14 MP3 Songs in this album (40:42) ! Related styles: COUNTRY: Outlaw Country, ROCK: Rockabilly People who are interested in Johnny Cash Dwight Yoakam Mike Ness should consider this download. Details: Justin Curtis and Sally Jo spend most of their time travelling from show to show singing about life's heartaches and love stories while Sally-Jo pounds out the rhythm on her upright bass and Justin strums along on his acoustic guitar. Recently they paused to get together with some of their friends to complete their fourth CD, Shoulda Known Better. Shoulda Known Better was produced by their pal Russell Broom and features him on keyboards, mandolin, and guitar (electric, acoustic and lap steel). Added to the mix are other A-list musicians playing drums, piano, organ, harmonica, pedal steel as well as a couple of surprises.

Combining influences of Johnny Cash, Hank Snow, Buck Owens, Stompin Tom, Mike Ness, Blue Rodeo and many others the CD is a fresh twist on classic roots rockabilly outlaw country music. The Songs:
