Mercurial indeed. A bold, eloquent body of music that shapeshifts with each playback. 10 MP3 Songs in this album (60:37) ! Related styles: URBAN/R&B: Retro-Soul, JAZZ: Progressive Jazz Details: i made this music with the collaboration of a wonderful team of people. Mark M. Goliath/ keys,production,arrangement,co-composition Lucas Khumalo/ bass Antonio Milagre Paco/ drums Matthew Sowerby/ guitar Buddy Wells/ Sax K L Hector/ backing vox on trac2 and of course darling Paris Zanos/ studio engineer mastering. i wrote the album and took care of 99 of the vocal work. the music video for 'Natural', which is on the hardcopy if you order instead of download, was shot across beautiful CapeTown South Africa. Even the cover art was a labour of love. My vision, direction and source material and the execution expertise of the talented boys at Flowerhorn FX created this beautiful cover. I hope that my work brings you pleasure. I welcome your communication. Incidentally the album art is also available as a banner shaped poster. i only made a few of them. If you'd like one, please leave me a message here or message me at my artist page on reverbnation.com i'll send you one ...as a gift of course :) Nash Reed
