ambient electronics dusted with a hint of worldbeat rhythms PLUS 2 VIDEOS. 10 MP3 Songs
ELECTRONIC: Ambient Details: Named after the ancient Buddhist temple in Singapore, Saiyuji concludes the CD trilogy begun with Disorient The Reality Temples. It's nine tracks were meticulously recorded over a period of a year and a half. The foundations for each piece were created on vintage analog synthesizers. Later, as the melodies formed in the ether, the music was layered using contemporary sensibilities and dusted with a hint of worldbeat rhythms. The result is a work of subtle mystery bridging the gap between old and new school artistry. A labor of love and devotion, Saiyuji represents Richard Bone's most sophisticated work to date and also debuts his growing experimentation with ambient video. Two of which, "By Any Other Name" "Improbable Earth," are included on the CD. People who are interested in William Orbit Harold Budd Brian Eno should consider this download.
