Greatest Hits collection from legendary San Francisco power pop trio from 1994 - 2004. Includes bonus material and previously unreleased tracks. 18 MP3 Songs POP: Power Pop, ROCK: 90's Rock Details: Spinning Jennies was one of San Franciscos most revered and long-lived power pop bands. Their 11-year career (spanning from 1993 2004) yielded five full-length albums, appearances on numerous compilations, and countless live shows and tours throughout the western U.S. As a no-nonsense power trio, the Jennies sound embodied the cornerstones of classic power pop: big chiming guitars, driving rhythms, soaring vocal harmonies and the ever-important melodic hook. Through the years they have received comparisons to bands like The Posies, Redd Kross, Cheap Trick, Sloan, Matthew Sweet, Husker Du and 70s power pop icons the Shoes. Released independently on the bands own label (Cool Buzz Records) "Full Volume" compiles the best of the Jennies 11-year canon of soaring power pop. The stand-out tracks from their five-album catalog are included here along with two new tracks (recorded in 2004 specifically for this compilation) and two previously unreleased tracks.
