URBAN/R&B: Smooth Soul, JAZZ: Smooth Jazz Details: Our group is called Twink. The talented music composer of this cd called Twink the Real Me is Floyd Grace. All of Floyds' friends call him Twink and thus the name of our group was chosen. Floyd has been on the music scene over twenty years. He is an accomplished percussionist. You know like congas, bongos, and all the trimmings. Years ago Floyd starting writing jingles for a local radio station and the start of his production career began. Floyd and some of his close friends and relatives who are also musicians got together and recorded this cd to try and provide some good old fashion entertainment for all who love good music. This will be the second cd we have available on cdbaby. Our first is still available and is called The Surprise of Love. If you don't have that one you should get it. We the members of the group Twink hope and pray that all who get our music really enjoy it. Thank you.
