Premium Retro Badges Pack 2 - Premium PSD Templates Pack Create Your Own Badges, Logos and More With This Brand New Collection Of Premium PSD Templates! Here's why you should still get THIS pack....

1. They're premium quality and much better than 90 of the free files you might find elsewhere on the Internet. Each template is really detailed with lot's of different subtle "effects" and graphics elements.
2. Everything is customizable... all of the things you see on these templates come on their own layer and can be customized. So you can change the colors, move things around, type in your own text, etc..
3. Each template has a unique "look", and you get 17 of these templates. And since everything is customizable, and you can mix different elements from different templates together... that means there's a HUGE variety of different badges and logos you can create.
4. Each template is in PSD format and uses "smart" vector layers... which means they can be resized to ANY size without quality loss (you can even use them for print projects).
5. You can use these to make any of your existing graphics better - like your eCovers or headers (I'll show you how later below).
6. You can use these WITHOUT Photoshop - The PSD files can be used with Photoshop or PS Elements... but if you don't have any of these programs I'm also including blank (without any text) templates in transparent PNG format that you can use with ANY graphics editor. Just type in your own text and you're done. P.S. These are fully layered PSD templates. Photoshop is preferred to use them, but you can also use them with any other program that opens layered PSD files (like Photoshop Elements or Gimp). And in case you don't have a program that opens PSD

files, I'm also including transparent PNG files that can be used with ANY graphics editor. *Works on both PC and Mac Premium Retro Badges V2 Comes with Personal Use Rights.
