

Computation Of Multivariate Normal And T Probabilities

[DOWNLOAD HERE](#)

Introduction.- Special Cases.- Methods That Approximate the Problem.- Methods That Approximate the Integral.- Further Topics: Linear Inequality Constraints.- Singular Distributions.- Singular Distributions.- Numerical Tests.- Software Implementations.- Applications.- Description of the R Functions.- Description of the MATLAB Functions. EAN/ISBN : 9783642016899 Publisher(s): Springer, Berlin Format: ePub/PDF Author(s): Genz, Alan - Bretz, Frank
