Details: I was born in Brooklyn New York. I am an Aries. As everybody knows we Aries are hard heads but persistent. As I was growing up I remember my dad would buy me a plastic guitar being that I always showed interest in learning how to play. I was around 6 years of age then. I would strum on the toy guitar and soon loose my patience. After breaking about 7 or 8 of these toy guitars, one day my father bought me the real thing. Wow I said to myself. This is neat. A bigger guitar then the one's I have ever owned and made out of wood and not plastic. Hum I wonder how it sound's like. Should I break it or try to learn on it. It was a used guitar which was cracked all around the edges. Well this is the one that I used to learn on. I thank my father and the good Lord he bought me this guitar. I was very impressed with it. Would you believe this is the one I learned on?. I was afraid to break this one and on this one I finally started to produce music. Being self taught and having a natural talent thanks to my good Lord the only one that could make impossible things possible I soon was on my way to what I am today. When people would hear me play they were really impressed. In a jokingly matter I would tell them, "That's nothing". "You should hear my father". Little did they know my father didn't even know how to hold a guitar. Of course after laughing for a while I would tell them the truth. I thank the Lord for making me the fine guitarist I am today. Being brought up in a Christian home I always had faith that the good Lord would be on my side and open doors that I have never dreamed would open. I have played on many shows just to mention a few, "Puerto Rican Panorama" on channel 6 in the great city of Philadelphia Pa. When I performed on this show I was the lead guitarist for "El Trio Los Galatas" a well known gospel trio. This show is directed by Diego Castellano a great hostess. I want to thank Diego for giving me the opportunity to perform on his show. If you like Latin Jazz and a style of music that once you start listening too you do not want to put

down, this is the cd for you. I recorded this cd with the public in mind in April 2003. There is nothing better than to listen to smooth latin jazz after a long hard day at work. I know you are going to enjoy this cd. Good Luck and God bless all those who have taken their precious time in reading this humble message. Your brother in Christ, Benny Muoz - (The Unique Musician)
