Horn-driven blues with a funk edge, along with rock, jazz and latin elements. 10 MP3 Songs

BLUES: Funky Blues, **ROCK:** Funk Rock Details: Blue Dice is an 8 piece horn driven powerhouse, based out of the greater Tampa Bay area in Florida USA. The group has been writing and composing original music since 1995. With a combination of Blues, Funk Rock rythmns, the solid, hard driving bottom with tasteful Funk elements accents the 4 piece punch and stab horn section adding the sizzle of Jazz and Latin flavors to our melodies. The soulful texture of our music is what makes the Blue Dice sound. Our 2nd CD "Why Now" was produced in 2000 by the legendary Jim Gaines of Santana, Stevie Ray Vaughn, Steve Miller, Tower of Power and Huey Lewis fame. Jim pulled out the best in all of us. Especially, his work with the Bottom and Rythmn sections. If you dig a variety of music in one CD , "Why Now" will give you what your looking for. Don't forget to check out our 1st CD "Let it Shine". As the Dice say "its all about the music", now you have Blue Dice. Experience this music venture. Add this CD to your cart Today!!
