Warm and immediate, these are "pop" songs stripped down to their glowing musical essence. 14 MP3 Songs FOLK: Gentle, POP: California Pop Details: 'Very few people have the capacity to sound like seasoned pros when playing live on college radio, but singer-songwriter Corbi Wright does. Blessed with an angelic voice that brings to mind both the folky harmony of Joni Mitchell and the husky jazz of Norah Jones, she doesn't need much to keep an audience mesmerized...Wright pens songs that are simple yet lovely ballads that evoke the kind of wintry, I-just-got-back-from-the-cold-and-want-to snuggle-with-someone-here-for-a-while type of imagery.' -Stephanie Laemoa, 'Eight Days a Week' San Francisco Bay Guardian
