The news is already spreading with an invitation to showcase at last Spring's International Pop Overthrow in Chicago. His radio friendly cd, 'Popular Crimes' was produced by fellow Austin popster Darin Murphy and features an impressive guest list including Tony Scalzo, Ron Flynt, and Jon Sanchez. "...all down the line the songs continue their parade of strong pop-rock." says the Austin Chronicle. Craig has just completed a new cd for 2005 with producer/engineer Darwin Smith entitled "Before The Fadeaway". Set for a February release, this recording sounds great and has an exiting live feel.
