Details: It's sad to see the older people dying off because when they die their stories die too. I am 75 years old and before I go I wanted to leave some of my favorite stories for my grandkids. They enjoyed these stories so much I thought maybe your kids would also. Sure, if you have a good imagination you can make up stories, but they don't usually sound quite the same. A lady bought a Grandpa's Old Timey Kid Stories CD for her kids, but when her 92 year old mother heard it she said, "Get another one for the grandkids, this one is mine". I hope you enjoy listening to these stories as much as I enjoy telling them, because every time I tell one, it reminds me that even in bad times there is always something fun to remember. Eddy Gober
